 **MK Energies**
A Moret Industries Company

Up to date: 14/09/16

ABOUT US:

The purpose of MK Energies is to intervene for its customers in order to deploy, equip, operate and optimize their energy and communication infrastructures, their industrial sites and buildings. MK Energies is both expert in each of these technology areas: electrical energy, thermal engineering, mechanical engineering, information and communications technology and expert in the art to its customers.

MK Energies possible to design, from their needs, high-value solutions that meet their performance challenges, reliability and security.

With the desire to be a key player in energy efficiency and renewable energy, energy feeds MKE aggregates supply Moret Industries Group in this area and in the integration of complex systems.

Entity: SME

Turn over: 17 million €

Number of employees or researchers: 60

QUALIFIED CONTACT:

Name: July MANKA

Position: Communication Manager

Phone number: 33 (0) 6 88 60 25 22

E-mail: july.manka@mk-energies.fr

MAIN ACTIVITIES LINKED WITH BIOMASS VALORIZATION:

Energy integration in sugar plants

EXPERTISE:

Power plant design integrating the dimensioning and provision of turboalternator

Distribution & Power Management: HTB, HTA, BT Design & development of electrical equipment

Power electronics Automation & control systems

Systems & Network Communications

Instrumentation & Technologies low voltage

KEY WORDS KNOW-HOW SECTOR APPLICATION:

Biopolymer
Biocompound
Cogeneration
Sugar

TECHNOLOGY AND EXPERTISE INTEREST:

We improve significantly your plant's processes in order to enhance energy economies.

TYPE OF PARTNERSHIP CONSIDERED:

- Commercial agreement with technical assistance
- Manufacturing agreement
- Research & Innovation cooperation agreement
- Services agreement
- Technical cooperation agreement

EXPERIENCE IN BRAZIL AND/OR WITH BRAZILIAN COMPANIES AND UNIVERSITIES:

Guarani – Cruz Alta / Sao José do Rio Preto (SP) – Brasil

REASON WHY YOUR ENTITY BECAME AN IAR DO BRASIL MEMBER:

Since its creation in 2013, MK Energies implements a model that favors growth, both organically and externally, as well as competitiveness. MK Energies relies for this on the points of strength, enabling it to progressively build its field of activities and transform approach "visionary" of his craft into practical innovative achievements, vehicles of progress for its customers and creators of satisfactions for its teams. To do this, MK Energies has four major advantages:

- 1) An organization that enriches companies with strong brands, recognized by their differentiated and complementary expertise enabling MK Energies a single deployment and coverage on all market segments, with an offer to both local and overall. Today MK Energies includes within its scope MK Peixoto established in Origny-Sainte-Benoîte, MK Power and MK Networks based in Reims, BASIS ep based in Saint Quentin and MK Energia do Brasil Salto located in the state of Sao Paulo in Brazil.
- 2) A culture of innovation, maintained and renewed constantly, which is causing an offensive commercial policy and differentiated brands. With strategic specific products and services, MK Energies has managed over the years to build and assert its leadership and integrator itself as a key player both with its customers and partners.
- 3) Sustained development, translating today with a presence in both mature countries worldwide and in emerging markets in Europe.
- 4) A diversified business approach, combining all the expertise and jobs in every industry, to ensure the most comprehensive coverage possible to the markets.
